

# \$0 behavioral health medications

## Certain medications used to treat behavioral health conditions may be covered at \$0 cost-share in New Mexico

Your **Prescription Drug List** will tell you which medications are eligible. For select medications, we need information about your medical conditions to determine if your medication qualifies for \$0 cost-sharing under your Individual & Family plan pharmacy benefit. This includes medications prescribed to treat a behavioral health condition that have not been approved by the United States Food and Drug Administration (FDA) to treat that condition.
