

Illinois Individual and Family Plans 2026 Prescription Drug List

Please note: This Prescription Drug List (PDL) is accurate as of September 1, 2026 and is subject to change after this date. All previous versions of this PDL are no longer in effect. Your estimated coverage and copay/coinsurance may vary based on the benefit plan you choose and the effective date of the plan.

If you are a UnitedHealthcare member, please register or log on to myuhc.com/exchange, or call the toll-free number on your health plan ID card to find coverage documents and pharmacy information specific to your benefit plan. The current PDL can also be accessed online at <https://www.uhc.com/member-resources/pharmacy-benefits/prescription-drug-lists/individual-exchange>.

Updated 9/01/2026

Formulary by health product name

The same formulary (this PDL) applies to all health product names included below. You can reference your Summary of Benefits and Coverage (SBC) document, which includes your specific plan information. Your SBC includes your deductible and out of pocket maximums, cost-shares for each tier, and a link to your PDL.

Understand your medication options

Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly used terms and their definitions as well as frequently asked questions:

Allowed amount means the maximum amount on which the health insurance issuer bases its payment for a covered health care service. This may be called "eligible expense", "payment allowance", or "negotiated rate." If your health care provider charges more than the allowed amount and is not part of the provider network, you may have to pay the difference.

Brand-name drug means a drug that is marketed under a proprietary, trademark protected name. The brand name drug is listed in all capital letters.

Coinsurance means a percentage of the cost of a covered health care service, which you are responsible to pay. The cost of the covered health care service is generally deemed to be the allowed amount, which may differ from the retail price that you would pay for the same service without using insurance. Typically, a coinsurance does not apply until after you have met the deductible, unless the health insurance issuer has waived or lowered the deductible for the health care service in question.

Copayment means a fixed dollar amount that you pay for a covered health care service. Typically, a copayment does not apply until after you have met the deductible, unless the health insurance issuer has waived or lowered the deductible for the health care service in question.

Covered individual means an individual enrolled in, subscribed to, or insured under a health product, whether directly or as a dependent or beneficiary.

Deductible means the amount you pay for covered health care services before your health product begins payment for all or part of the cost of the health care service under the terms of coverage. If your health product has a deductible, it may have either one deductible or separate deductibles for medical benefits and drug benefits. For some health care services, such as preventive services, the health insurance issuer might waive or lower the deductible to pay for costs of the health care service from the first dollar of coverage, but this tends not to happen for most other covered services.

Drug Tier means a group of drugs that corresponds to a specified cost sharing tier in the health product's drug coverage. The tier in which a drug is placed determines your portion of the cost for the drug.

Exception request means a request for coverage of i) a nonformulary drug, ii) a drug being removed from the formulary, or iii) a quantity of a drug above a quantity limit. If you, your designee, or your attending or prescribing provider submits an exception request for coverage of a drug, the health insurance issuer must cover the drug when the drug is determined to be medically necessary to treat your condition.

Exigent circumstances are when you are suffering from a health condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a nonformulary drug.

Formulary means the complete list of drugs preferred for use and eligible for coverage under a health product, and includes all drugs covered under the outpatient or pharmacy drug benefit of the health product. Formulary is also known as a drug list or prescription drug list.

Generic drug means the same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in bold and italicized lowercase letters.

Non-formulary drug means a drug that is not listed on the health product's formulary as a covered drug, but may become eligible for coverage under an "exception request."

Out-of-pocket costs means copayments, coinsurance, and the applicable deductible, plus all costs for health care services that the health product does not cover.

Prescribing provider means a health care provider authorized to write a prescription to treat your health condition.

Prescription means an oral, written, or electronic order by a prescribing provider for you that contains the name of the drug, the quantity of the drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by you, the health condition or purpose for which the drug is being prescribed.

Prescription Drug Product means a drug that is prescribed by your prescribing provider and requires a prescription under applicable law. Medications which, due to their traits, are administered or directly supervised by a qualified provider or licensed/certified health professional will be covered under the medical benefit when medically necessary.

Prior authorization means a health product's requirement that you or your prescribing provider obtain the health insurance issuer's authorization for a drug before the health product will cover the drug. The health insurance issuer must grant a prior authorization when it is medically necessary for you to obtain the drug.

How do I use my PDL?

When choosing a medication, you and your doctor should consult the Prescription Drug List (PDL). It will help you and your doctor choose the most cost-effective prescription drugs. This guide tells you if special programs apply. Bring this list with you when you see your doctor. It is organized by therapeutic category and class. The therapeutic category and class are based on the United States Pharmacopeia (USP) Pharmacologic-Therapeutic Classification System.

You may also find a Prescription Drug Product by its brand or generic name in the alphabetical index. If a generic equivalent for a brand-name Prescription Drug Product is not available on the market or is not covered, the Prescription Drug Product will not be separately listed by its generic name.

This is the way Prescription Drug Products appear in the PDL:

- 1. A drug is listed alphabetically by its brand and generic names or, if only the generic equivalent is covered under the plan, then just by its generic name, in the therapeutic category and class to which it belongs;
- 2. The generic name for a brand-name drug is included after the brand-name in parentheses and all bold and italicized lowercase letters;
- 3. If a generic equivalent for a brand name drug is available, and both the brand name and generic equivalents are covered, the generic drug will be listed separately from the brand name drug in all bold and italicized lowercase letters; and;
- 4. If a generic drug is marketed under a proprietary, trademark-protected brand-name, the brand-name will be listed in all CAPITAL letters after the generic name in parentheses and regular typeface with the first letter of each word capitalized.

Example:

Drug Name	Drug tier	Coverage requirements and limits
DILT-XR CAP 180MG (<i>diltiazem hcl cap er 24hr 180 mg</i>)	2	
<i>diltiazem hcl cap er 24hr 180 mg</i>	2	

If your medication is not listed in this document, please visit myuhc.com/exchange or call the toll-free member phone number on your member ID card.

Below is a list of drug tier numbers, abbreviations and designations used in the PDL as well as an explanation for each.

CM	Orally administered anti-cancer medication
PA	Prior authorization required
QL	Quantity limit
SM	Cost-share cap by state mandate applies when condition appropriate
SP	Specialty medication

What are tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, and you can find cost-sharing information in your plan documents. This determines how much you will pay when you fill a prescription at a network pharmacy. Using lower tier medications can help you pay your lowest out-of-pocket cost. If you are prescribed a medication on a higher tier, you should discuss with your health care provider if a lower tier medication may be appropriate for your condition. In the chart below, the overall value is based on factors such as medication's effectiveness, safety, cost, and the availability of alternative medications to treat the same or similar medical condition.

For orally administered anti-cancer Prescription Drug Products, there are no separate cost-sharing requirements or treatment limitations that do not also apply to intravenously injected or administered cancer Prescription Drug Products covered under your medical benefit.

Oral chemotherapeutic Prescription Drug Products will be provided at a level no less favorable than chemotherapeutic agents are provided, regardless of tier placement as described in the Policy under Pharmaceutical Products - Outpatient in Section 1: Covered Health Care Services.

Your drug list has the following tiers:

Tier	Cost-share	Includes
1	\$0	\$0 Cost-share Medications available at no cost to you, which includes preventive medications .
2	\$	Lower cost-share Medications that offer the highest overall value , which includes preferred generic medications.
3	\$\$	Mid-range cost-share Medications that provide good overall value , which includes preferred brand name and non-preferred generic medications.
4	\$\$\$	Higher cost-share Medications that provide lower overall value , which includes non-preferred brand name and non-preferred generic medications.
5	\$\$\$\$	Highest cost-share Medications that provide the lowest overall value , which includes most specialty medications.

Please note: Refer to your enrollment and plan materials on myuhc.com/exchange, or call the toll-free number on your member ID card for more information about your benefit plan. Your cost-share will not exceed the lesser of the cost-sharing amount or the retail price of the medication without the drug coverage.

When does the PDL change?

This PDL is required to be updated on a monthly basis.

- Medications may move to a lower tier or coverage may be added at any time.
- Medications may move to a higher tier when a generic becomes available.
- Medications may move to a higher tier, become non-formulary, or the dosage form covered may change
- Medications may become subject to new or revised utilization management procedures, such as prior authorization or quantity limits, at any time but most often upon FDA approval of the medication or its generic

When a medication changes tiers, you may have to pay a different amount for that medication. The presence of a Prescription Drug Product on the PDL does not guarantee that you will be prescribed that Prescription Drug Product by your provider for a particular medical condition.

Utilization Management programs

Prior authorization required – Your doctor is required to provide additional information to us to determine coverage.

Quantity limit – Amount of medication covered per copayment or in a specific time period. Medications with quantity limits may be dispensed in greater quantities if medically necessary and with an exception.

Patient Protection and Affordable Care Act (PPACA) zero cost-share preventive care medication when age and/or condition appropriate – This medication is part of a health care reform preventive benefit and may be available at no cost to you when used for appropriate preventive purposes. PPACA zero cost-share preventive care medications can be obtained, free of charge, at network pharmacies with a prescription from a prescribing provider. A prescription will not be required to trigger coverage of over-the-counter FDA-approved contraceptive drugs, devices, and products. PPACA zero cost-share preventive care medications are obtained at a network pharmacy with a prescription order or refill from a physician and are payable at 100% of the prescription drug charge (without application of any Copayment, Coinsurance, Deductible) as required by applicable law under any of the following:

- Evidence-based items or services that have in effect a rating of “A” or “B” in the current recommendations of the United States Preventive Services Task Force
 - Immunizations that have in effect a recommendation from the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention with respect to the individual involved
 - With respect to infants, children and adolescents, evidence-informed preventive care and screenings provided for in the comprehensive guidelines supported by the Health Resources and Services Administration
 - With respect to women, such additional preventive care and screenings as provided for in comprehensive guidelines supported by the Health Resources and Services Administration
-

State mandated \$0 cost-share – The following drug categories are required by state mandate to be covered at \$0 cost-share when condition appropriate:

- Abortion-related medications
 - Continuous Glucose Monitors (CGMs)
 - Gender Dysphoria medications
 - Human Immunodeficiency Virus (HIV) Prevention medications
 - Naloxone (single ingredient formulations)
-

State mandated cost-share caps - The following drug categories are subject to state mandated limits on cost-share:

- Asthma medications (including rescue and maintenance inhalers and nebulizers) - \$25
- Epi-Pen - \$60
- Insulin - \$35

What medications are covered under my medical benefit?

Prescription Drug Products administered by a health care professional are generally covered under the medical benefit while Prescription Drug Products that are self-administered are covered under the pharmacy benefit. To learn about Prescription Drug Products covered under your medical benefit, visit uhcprovider.com/content/dam/provider/docs/public/resources/pharmacy/IFP-Clinical-Program-Summary-Drug-List.pdf The provider may contact UnitedHealthcare for more information or go to uhcprovider.com.

Your right to request access to a non-formulary drug

This plan must cover all medically necessary Prescription Drug Products.

When a Prescription Drug Product is not on our PDL, you or your representative may request an exception to gain access to that Prescription Drug Product. To make a request, contact us in writing or call the toll-free number on your member ID card. We will notify you of our determination within 72 hours. If approved, we will cover the Prescription Drug Product for the duration of the prescription, including refills.

Urgent requests

If your request requires immediate action and a delay could significantly increase the risk to your health, or the ability to regain maximum function, call us as soon as possible. We will provide a written or electronic determination within 24 hours. If approved, we will cover the Prescription Drug Product including refills for the duration of the exigency.

External review

If you are not satisfied with our determination of your exception request, you may be entitled to request an external review. You or your representative may request an external review by sending a written request to us to the address set out in the determination letter or by calling the toll-free number on your member ID card. The Independent Review Organization (IRO) will notify you of its determination within 72 hours.

Expedited external review

If you are not satisfied with our determination of your exception request and it involves an urgent situation, you or your representative may request an expedited external review by calling the toll-free number on your health plan ID card or by sending a written request to the address set out in the determination letter. The IRO will notify you of our determination within 24 hours.

If we deny your exception request, you may appeal. Please refer to your Evidence of Coverage for details. The complaint and appeals process, including independent review, is described under Section 6: Questions, Complaints and Appeals. You may also call the telephone number listed on your health plan ID card.

Requesting a prior authorization exception

Before certain Prescription Drug Products are dispensed to you, your prescribing provider or your pharmacist is required to obtain a prior authorization exception from us. Your prescribing provider can submit a request by phone to Optum Rx® or electronically by contacting us at uhcprovider.com. Most authorizations are completed within 24 hours. The most common reason for delay in the authorization process is insufficient information. Your licensed physician may need to provide information on diagnosis and medication history and/or evidence in the form of documents, records or lab tests which establish that the use of the requested Prescription Drug Product meets plan criteria. You may determine whether a particular Prescription Drug Product is subject to prior authorization requirements by going online at myuhc.com/exchange or by calling at the toll-free phone number on the back of your member ID card.

Approvals for maintenance medications used to treat a chronic or long-term condition will be valid for the lesser of 12 months or the length of treatment determined by the your prescribing provider. All other approvals, except for benzodiazepines and Schedule II narcotic drugs, will be valid for the lesser of six months the length of treatment determined by your prescribing provider, or the renewal of your plan.

In the case of a standard prior authorization exception request, we will notify you, your designee, or your prescribing provider of the Benefit determination no later than 72 hours following receipt of the request. In the case of an expedited prior authorization exception request based on exigent circumstances, we will notify you, your designee, or your prescribing provider of the Benefit determination no later than 24 hours following receipt of the request. If we fail to respond to you, your designee, or your prescribing provider within the prescribed time limits, the request is deemed approved and we may not deny the request thereafter.

If you disagree with a determination, you can request an appeal. The complaint and appeals process, including independent medical review, is described in the Evidence of Coverage under Section 6: Questions, Complaints and Appeals. You may also call at the telephone number on your health plan ID card.

If a medical exception is approved, we will provide coverage for the medication for up to 12 months from the date of approval or until the renewal of your plan.

How do I locate and fill a prescription through a retail network pharmacy?

UnitedHealthcare has a well-established network of pharmacies including most major pharmacy and supermarket chains as well as many independent pharmacies. For a listing of network pharmacies, call the toll-free phone number on your health plan ID card to help locate a network pharmacy near you or visit our website at myuhc.com/exchange > Pharmacies & Prescriptions > Find a pharmacy for an up-to-date list.

Prescription delivery options

You have choices on where to fill prescriptions you take regularly. You have the option to fill at a retail pharmacy or have them mailed to your home. It's up to you. Home Delivery Pharmacy is one of your network options. There may be other options in your network. Sign in at myuhc.com/exchange > Pharmacies & Prescriptions > Find a pharmacy.

How do I locate and fill a prescription through the mail order pharmacy?

UnitedHealthcare offers a Mail Order Pharmacy Program. Here's how to fill prescriptions through Home Delivery.

- **E-prescribe:** Ask your prescribing provider to electronically send new prescriptions to Home Delivery Pharmacy for up to a 90-day supply, or Home Delivery Pharmacy can call your doctor for you.
- **Online:** Visit myuhc.com/exchange > Pharmacies Prescriptions > Rx profile to set up an account.
- **Phone:** Call Home Delivery at the number on your health plan ID card, any day, time.

How do I get updated information about my pharmacy benefit?

Since the PDL may change during your plan year, we encourage you to visit myuhc.com/exchange or call the toll-free member phone number on your health plan ID card for more current information.

You will receive sixty days notice if one of the following changes impacts you:

- A medication is moved to a higher tier*
- A medication becomes non-formulary*
- A medication becomes subject to new or revised utilization management procedures

*You may be able to continue coverage of the medication at the same cost-share if your prescriber provides notice of medical necessity.

Questions

Review your policy for more information about your pharmacy benefit.

Call the Member Services number on your health plan ID card.

Our customer service team is available during normal business hours to support you with questions about your Prescription Drug Product benefits. We can help with:

- Information about drugs covered under your medical benefit
- The actual dollar amount you'll pay for medications, including those subject to deductibles, copayments, coinsurance, or out-of-pocket limits
- How to request prior authorization or submit a formulary exception request

Register or login to your online account at myuhc.com/exchange to:

- Find current list of covered medications
- Find a network pharmacy by ZIP code
- Learn about home delivery
- Look up possible lower-cost medication alternatives
- Compare medication pricing and options
