

MedicalRx Advisor

Reducing your out-of-pocket costs for specialty medications

The specialty medication market is constantly evolving, providing new and innovative treatments for patients with rare, chronic or severe conditions. To help make these life-changing medications more affordable, many prescription drug manufacturers have established copay assistance programs.

MedicalRx Advisor™ is here to help you navigate those programs, which may help reduce or eliminate the high out-of-pocket costs of your medication.

What you'll get with MedicalRx Advisor

- **Enrollment guidance** – A MedicalRx Advisor Patient Advocate will explain how the solution works, guide you through the enrollment process and help you understand what to expect along the way
- **Reduced out-of-pocket costs** – Once you're enrolled, a MedicalRx Advisor Patient Advocate will help you understand eligible copay assistance programs that are available to you, clarify your expected reduced out-of-pocket costs and explain your claim statement and how payments are coordinated between you and your health care provider
- **Ongoing support** – Reach out to a MedicalRx Advisor Patient Advocate with any questions anytime, even after your initial enrollment
