

# Updates to your prescription benefits

Effective January 1, 2026

## Essential 4-Tier PDL update summary

Within the Prescription Drug List (PDL), prescription drugs are grouped by tier. The tier indicates the cost and coverage level of a drug. Please reference the chart below as you review the following updates to the PDL.

### Prescription drugs with new benefit coverage

The following drugs were previously not covered under most benefit plans and are now eligible for coverage.

Therapeutic use	Medication name	Tier placement
Sleep	Belsomra	Tier 4

### Prescription drugs excluded from benefit coverage<sup>1,2</sup>

We evaluate prescription drugs based on their total value, including how a drug works, its safety, and how much it costs. When several drugs work in the same way, we may choose to exclude the higher-cost option. Effective **January 1, 2026**, the drugs listed below may be excluded from coverage or you may need to get a prior authorization. Sign into your online account to check if there are any actions you need to take.

Therapeutic use	Medication name	Alternative treatment option(s)
Alzheimer's disease	Zunveyl <sup>3</sup>	galantamine (generic Razadyne)
Asthma/COPD	Umeclidinium/Vilanterol (Anoro Ellipta authorized generic) <sup>3</sup>	Anoro Ellipta
