Frequently asked questions

Which diabetic supplies are covered by my medical benefit?

In addition to prescription coverage, your plan's medical benefit may also cover some diabetic supplies, like continuous glucose monitors. Continuous glucose monitors, insulin pumps, and pump supplies are provided when clinical guidelines are met and when obtained from sources designated by your health plan. Call the phone number on your health plan ID card for more information.

Do I need to meet my deductible to get medications and supplies at \$0?

For the medications and products listed as \$0, even if your plan has a deductible and you haven't met it, your cost-share is still \$0 when filled at a network pharmacy.

What if my medication or diabetic supply requires a prior authorization or is not covered?

If your healthcare provider (doctor, nurse practitioner, etc.) determines you need a medication or product that requires a prior authorization or is not covered, they can let us know your medication is medically necessary and provide information about your diagnosis and medication history:

- Online: professionals.optumrx.com/prior-authorization
- Phone: **1-800-711-4555**

If you need help, you can also start a request at myuhc.com/exchange or by calling the member services number on your health plan ID card, and we can contact your healthcare provider for information to help process the request.

How can I save money?

- Choose a medication in Tier 1 or Tier 2 for your lowest cost options. If your medication is in a higher tier, you may pay more. Ask your healthcare provider if a lower cost medication can work to treat your condition.
- Check the price of a drug to find your lowest cost options at myuhc.com/exchange. For maintenance medications, ordering a 3-month supply may save you money.
- Check the manufacturer's website for savings programs or coupons.
